Loss Only \$93,270

## Local Fire Dep't Answered 1,822 Alarms Last Year

Portland's fire department answered 1,822 alarms last year, but the total fire loss amounted to only \$93,270.

THAT WAS the 1953 record reported by Fire Chief Oliver T. Sanborn in his annual report.

The number of alarms was second only to 1947, when the department answered 1,941 calls. But that year had a fire loss of \$477,085, the second highest in the department's records. The highest loss ever recorded was in 1929, with a total of \$594,626.

Most of the damage caused by fire last year occurred in 17 fires where the loss was \$1,000 or more.

ONLY 155 of the calls were for actual building fires and 88 for chimney fires. Other types of fires such as grass accounted for over 1,000 of the calls.

The report carried fewer recommendations than any previous report of Sanborn's. He recommended that:

A NEW FIRE station be built on the site of the storage shed on Ocean Avenue which was demolished last year.

PIECES OF APPARATUS in service for more than 25 years be replaced.

THE NEW AIR raid signal system be tested once a week to be sure that it will be in operating condition "if we are required to use it."

## Apparatus

In February a 750 gallon triple combination was placed in service at Station 8. This was purchased the previous year.

A new motor for the fire boat was ordered, delivery expected early in 1954.

The Fire Prevention Bureau automobile, also the shop truck were replaced.

All of the apparatus is in good serviceable condition, although the dependability of some of it is questionable on account of years of service.

In the near future consideration should be given to replacing four pieces of apparatus which have been in service 25 years or more.

### Houses

The old storage shed on Ocean Ave. was demolished.

The building on Brackett St., formerly occupied by Engine 3 was sold.

The India St. building which had been leased for a number of years was taken over for a department repair shop and storage. Suitable facilities for doing repair work have been needed for a long time.

Major repairs were done at Central Station, including a new front ramp, new driveway and retaining walls at the rear of the Station, and a new roof.

The usual amount of work inside of the Stations was done by members of the Department. This included a new kitchen at Station 8, and painting at various stations.

### Hose

The following amount of hose was sold to the Sewer Department:

3" - 148 Feet  
2-1/2" - 1850 "

Amount of hose condemned and junked:

2-1/2" - 100 Feet

## Fire Prevention Activities

In the Fire Prevention Week contest, Portland placed 26th out of 30 top communities competing for the grand award. In New England it rated third place, and was first in the State of Maine.

This record was due to the aggressive fire prevention and inspection activities carried on by the Department.

Following is the 1953 Fire Inspection record:

Dwellings (less than 3 families)	1821
" (3 or more families)	2884
Lodging Houses	591
Hospitals and Convalescent Homes	103

### Fatalities

Miss Edith O. Greenhalgh received fatal burns on March 10, 1953 and died April 22, 1953.

Mrs. Louise M. Townsend burned to death Nov. 17, 1953. (Cause - Smoking in bed).

John Decker burned to death Nov. 23, 1953. (Cause - Smoking in bed).

### Island Fire Protection

Following is a record of police work performed by the Peaks Island Company:

Complaints	103
Emergency - Fire Boat	34
" - Casco Bay Boat	59
Help or Aid	99
Miscellaneous	18

Fire protection on the other islands remains the same.

### Training

During the Summer the drill school was in operation with classes for probationers and first year men. There were 16 classes of two hours each.

An officers instruction school was held during the winter months.

Pump school and company drills were carried on as usual.

### Financial Statement

<u>Total Appropriations</u> <u>&amp; Credits</u>	<u>Total</u> <u>Expenditures</u>	<u>Balance</u>
\$ 606,195.00	\$ 588,657.26	\$ 17,537.74

### Recommendations

As all of the recommendations I made last year have been carried out, there are no serious problems to be submitted for your consideration.

Future plans should include the construction of a new fire station on the site of the demolished storage shed on Ocean Ave., for Engine 11. This would permit turning over the property now occupied by that company to the School Department as an addition to the Cummings School playground.

### Conclusion

In concluding my thirtieth and final report, I again express my sincere appreciation to the Members of the City Council and the City Manager for the interest they have taken in the Department, and the support they have given me through the years I have been Chief.

I am grateful to the Members of the Department for the respect they have accorded me at all times, and for the faithful and efficient manner in which they have performed their duties.

Respectfully submitted

---

Repaired Box #24.

Closed 3 open circuits.

New England Tel. & Tel. Co. (continued)

Old covered wire was replaced with new aerial and underground cable at the Oakhurst Dairy Building.

New inside cables and distribution terminals were placed at the State Pier Warehouse, Grant Knowles, Porteous, Mitchell and Braun Company and Owen Moore, providing for the rearrangement and removal of old and unsightly plant from these buildings.

New underground and inside cable for Television service (WMTW) was placed from the Eastland to the Columbia Hotel.

Television cable was placed from the Eastland tower to the Control room for WCSH.

Underground cable varying from 909 to 2121 pairs was placed from the Telephone Building at 45 Forest Avenue to Morrills Corner via Forest Avenue. This is the start of a major project which will provide additional and better grades of service to new and existing subscribers in the Riverton, North Deering, Rosemont and Stroudwater sections of the city.

New conduit was placed on Highland Avenue and Revere Street. Additional to existing conduit was placed on Woodford and Danforth Streets. Some additional manholes were placed at these locations.

In connection with the new overpass and cutoff at Washington Avenue and Veranda Street new underground conduit and aerial cable has been placed. At the completion of this job old poles and wires are to be removed.

Minor pole replacements jointly occupied with the Casco Bay Light and Power Company were made at Peaks Island.

At various locations in all sections of Portland old and deteriorated poles jointly occupied with the Central Maine Power Company were replaced with new poles.

New additional cable and terminals were placed inside the State Building.

### Recommendations

I recommend the air raid signal system be tested once a week. This is done in other places and was carried out here during the last war.

Apparently it is in good order, but there is no assurance that it will operate if we are required to use it.

According to a recent report, measured by present day requirements, the system is some 75% deficient, although it has a higher decible total now than it had during the last war when it was considered satisfactory.

By testing, it may be possible to determine what sections of the city require the installation of additional sirens.

Respectfully submitted
